ECONOMIC RUIN.

America's safety net hospitals are on the front lines of health care. We know the current system is unsustainable. Every day we see the insured, the uninsured and the underinsured—and the unhealthy consequences of programs that don't pay for essential care. We know from experience that adequately insuring everyone results in healthier people, stronger communities and a more stable and secure economy. America's safety net hospitals call on Congressional leadership and President Obama to enact health care reform that benefits everyone.
